✓ Prescriptions*

✓ Skin issues

✓ Urgent care

*Available in select states

Airvet saved my cat's life.

Cats sometimes throw up for no reason. Unfortunately it was a Sunday, so my vet was unavailable. I knew I needed an expert and called Airvet.

Airvet recommended I immediately take my cat to urgent care, explained exactly her concerns and the tests my cat would receive and why this shouldn't wait. Airvet saved my cat's life.

-- Amanda & Cheddar

Airvet has been an amazing go-to!

I've started using Airvet for our family dog Shiloh, but have since started using it for our new Australian Shepherd puppy, Rufus. Caring for a puppy is very chaotic, challenging and stressful. Airvet has been an amazing go to for me to quickly chat with an expert on everything I wasn't sure about.

Airvet has saved me a lot of time and money!

-- Tony & Shiloh

Requesting a prescription

Airvet now offers prescriptions to residents of California, New Jersey, New York and Virginia. Follow the instructions below to complete a prescription request in the Airvet app.

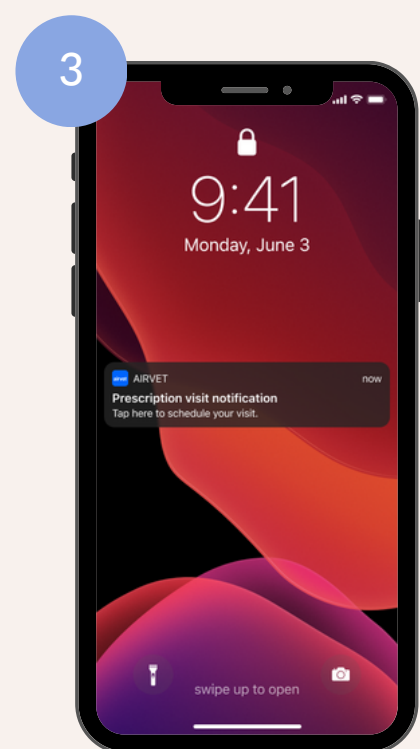

Tap "Talk to a vet"

You can find the prescription request under the featured programs section.

Complete your request

You'll be asked to provide information required to supply a prescription.

Meet with a vet

A member of our team will reach out via the app to schedule time to meet with a veterinarian.

Frequently Asked Questions

Can you prescribe medications for all pets?

At this time, we can prescribe medications for cats and dogs only.

Where can Airvet prescribe?

Airvet can prescribe medications for pet parents residing in California, New Jersey, New York, and Virginia.

What types of medication can be prescribed?

Airvet can prescribe medications to treat flea and tick, pain treatment, eye infections, skin rashes and more.

How do I receive the prescription?

If the veterinarian determines your pet needs a prescription, you will receive an email from our partner Vetsource who ships all medications from the manufacturers directly to your doorstep. For urgent fulfillment, your veterinarian will arrange for a pickup at your local pharmacy.
