## fertility medications

Your fertility medication goes hand-in-hand with your fertility treatment and will be handled through your coverage with Kindbody. Your medication allotment is defined in the “Coverage Overview” section on page 4. Medical plan cost share applies to fertility medication.

### How does this work?

1. Your treating physician determines your course of treatment and sends your prescriptions to Kindbody’s pharmacy partner, Schraft's Pharmacy.
2. A representative from Schraft's Pharmacy will contact you directly to review the medications ordered and go over any questions. If you have any out of pocket costs, Kindbody will contact you to discuss these costs and obtain credit card details to secure delivery. The pharmacy will then coordinate overnight shipping with you.
3. You will receive a Kindbody Medication Box with instructions - for additional support, go to your [portal](#) for video instructions on how to administer your medications.

The medications that fall under your fertility coverage are listed here:

## third party reproduction benefits

We recognize that there are many ways to build a family. That's why we're here to help those looking to grow their family through adoption or surrogacy. Activision Blizzard has retained Kindbody's care navigation experts and specialized coaches to assist you with the process from end-to-end.

Your third party reproduction benefit is designed to sit outside of your fertility treatment coverage. This benefit can be applied to services related to using a donor, surrogate, or adoption. This is designed to reimburse for expenses unrelated to any actual treatment that would be covered through your major medical or fertility plan.

All active regular full-time employees are eligible for up to \$20,000 per lifetime for eligible third-party reproduction (donor and surrogacy) and adoption services that are incurred along the way towards a Legally Finalized Adoption or Legally Finalized Surrogacy. Eligible employees may seek assistance for both adoption and donor/surrogacy expenses for the same child, but in no event will the amount reimbursed exceed a combined total of the \$20,000 per event. This benefit will be available the first day following the completion of 6 months of service.

To use your coverage for third party reproduction services:

**1.** Submit eligible out of pocket expenses and itemized receipts to the billing team via secure messaging in the Kindbody [portal](#)

**2.** Kindbody will review your documents and eligibility to determine if reimbursement can be initiated

Examples of eligible expenses for this portion of the benefit:

- |   |  |
|---|--|
| <ul style="list-style-type: none"> <li>• Donor tissue and specimen fees</li> <li>• Transportation of any donor specimen</li> <li>• Agency fees</li> <li>• Legal fees</li> </ul> | <ul style="list-style-type: none"> <li>• Counseling services, as required</li> <li>• Screening costs associated with donor</li> <li>• Adoption fees</li> </ul> |

To support you in your third party reproduction journey, Kindbody has partnered with several organizations and resources to help navigate the process:

- IRS Form 8839 provides that certain adoption-related expenses will be exempt from tax for taxpayers with income below an indexed threshold amount. Please refer to the instructions to Form 8839 to determine if a particular reimbursement amount is exempt from income tax.
- Neither Activision Blizzard nor Kindbody can provide you with specific tax advice but in general, if an employee's modified Adjusted Gross Income (modified AGI) does not exceed the income limitation under section 137(b)(2)(A) of the Code, as adjusted for inflation in accordance with section 137(f) (\$223,410 in 2022) the full amount of the benefits which are described in the instructions to IRS Form 8839 are non-taxable. If the employee's modified AGI exceeds this limit, the non-taxable portion of the benefit will be reduced in accordance with a formula set forth in section 137(b)(2)(A) of the Code. The full benefit is taxable to an employee whose modified AGI equals or exceeds the maximum amount (\$263,410 in 2022). These dollar amounts may be adjusted by the IRS annually for cost of living increases. Please see your tax adviser to determine how these rules affect your taxes.
- Payments in excess of the allowable maximum will be included in the participant's income in the year in which the payment is made.
- **Domestic Adoptions** - For Domestic Adoptions, Qualified Adoption Expenses are excludable from the Participant's gross income for the taxable year in which the Participant pays the expense.
- **Foreign Adoptions** - For Foreign Adoptions, Qualified Adoption Expenses are excludable from the Participant's gross income only in the taxable year in which the adoption becomes final.
- An employee may be eligible to claim both a tax credit and an exclusion for reimbursement of certain expenses. However, a tax credit and exclusion must not be claimed for the same expense.
- Neither Activision Blizzard or Kindbody makes any commitment or guarantee that any amounts paid to or for the benefit of an employee under this program will be excludable from the employee's gross income for federal or state tax, or that any other favorable tax treatment will apply to or be available to any employee with respect to such amounts. It shall be the obligation of the employee to determine whether any benefit paid under this program is excludable from the employee's gross income for federal and state tax purposes.

A lifetime maximum is the total amount of dollars or cycles available to you to use over the course of your coverage lifetime. It works like a “bank account” where you start with a certain amount of cycles or money, and each time you do a service, the value of that service is deducted from your total bank balance.

### **What is a cost share?**

A cost share is how much you, as the patient, is required to pay before your coverage is active.
