Income tax implications

- IRS Form 8839 provides that certain adoption-related expenses will be exempt from tax for taxpayers with income below an indexed threshold amount. Please refer to the instructions to Form 8839 to determine if a particular reimbursement amount is exempt from income tax.
- Neither Activision Blizzard nor Kindbody can provide you with specific tax advice but in general, if an employee's modified Adjusted Gross Income (modified AGI) does not exceed the income limitation under section 137(b)(2)(A) of the Code, as adjusted for inflation in accordance with section 137(f) (\$223,410 in 2022) the full amount of the benefits which are described in the instructions to IRS Form 8839 are non-taxable. If the employee's modified AGI exceeds this limit, the non-taxable portion of the benefit will be reduced in accordance with a formula set forth in section 137(b)(2)(A) of the Code. The full benefit is taxable to an employee whose modified AGI equals or exceeds the maximum amount (\$263,410 in 2022). These dollar amounts may be adjusted by the IRS annually for cost of living increases. Please see your tax adviser to determine how these rules affect your taxes.
- Payments in excess of the allowable maximum will be included in the participant's income in the year in which the payment is made.
- **Domestic Adoptions** - For Domestic Adoptions, Qualified Adoption Expenses are excludable from the Participant's gross income for the taxable year in which the Participant pays the expense.
- **Foreign Adoptions** - For Foreign Adoptions, Qualified Adoption Expenses are excludable from the Participant's gross income only in the taxable year in which the adoption becomes final.
- An employee may be eligible to claim both a tax credit and an exclusion for reimbursement of certain expenses. However, a tax credit and exclusion must not be claimed for the same expense.
- Neither Activision Blizzard or Kindbody makes any commitment or guarantee that any amounts paid to or for the benefit of an employee under this program will be excludable from the employee's gross income for federal or state tax, or that any other favorable tax treatment will apply to or be available to any employee with respect to such amounts. It shall be the obligation of the employee to determine whether any benefit paid under this program is excludable from the employee's gross income for federal and state tax purposes.

Benefit information

What is a lifetime maximum?

A lifetime maximum is the total amount of dollars or cycles available to you to use over the course of your coverage lifetime. It works like a “bank account” where you start with a certain amount of cycles or money, and each time you do a service, the value of that service is deducted from your total bank balance.

What if I exhaust my Kindbody coverage sponsored by my employer?

You can continue to obtain treatment at self-pay rates. As a Kindbody Member, you will receive exclusive Kindbody rates on any non-covered services at signature Kindbody clinics.

What if I am no longer eligible for the Kindbody benefit?

If you are no longer eligible for the Kindbody benefit, (e.g., you/ your partner are no longer employed by Activision Blizzard), you will be responsible for the cost of any treatment and/or the annual storage fee at Kindbody’s retail rates.

Can you tell me more about Kindbodys’ Holistic Health providers?

Patients can schedule a virtual appointment with a robust network of specialty providers, including mental health therapists, nutritionists, surrogacy, donor, and adoption coaches, postpartum and return-to-work coaches, physical therapists, doulas, eastern medicine specialists, lactation consultations, and more. All of the providers have been carefully vetted and are deeply committed to curating a personalized journey for each and every patient.

What is third party reproduction?

Third Party Reproduction refers to the use of eggs, sperm or embryos that have been donated by a third person, known as a donor. A donor enables an individual or couple to become parents. Donor eggs, sperm or embryos are used in ART procedures like IVF or IUI. “Third Party Reproduction” also includes surrogacy - via traditional or gestational carriers.
