Male Fertility Services

Taking care of your reproductive health is an important part of staying healthy and your annual physical does not include a semen analysis. An abnormal semen analysis is the presenting sign of an underlying health issue in up to 10% of males. Learn more about your sperm health by scheduling a Male Fertility Assessment.

The following medical services are available for males under the Kindbody benefit*:

- Male fertility assessment
- Sperm analysis
- Comprehensive Evaluation when abnormal semen analysis results are received
- Sperm cryopreservation and storage for 1 year

** Fertility services and medication benefits are subject to any applicable deductible, copay or coinsurance as described by your Activision Blizzard medical plan*
